A terminal window titled '~ : bash — Konsole' with a menu bar (File, Edit, View, Bookmarks, Settings, Help) and a toolbar (New Tab, Split View Left/Right, Split View Top/Bottom, Load a new tab with layout 2x2 terminals, Load a new tab with layout 2x1 terminals). The terminal content shows the execution of several commands to create a user named 'newusr' with sudo privileges.

```
os@neon-virtualbox:~$ sudo useradd -m newusr
[sudo] password for os:
os@neon-virtualbox:~$ sudo usermod -a -G sudo newusr
os@neon-virtualbox:~$ groups newusr
newusr : newusr sudo
os@neon-virtualbox:~$
```

```
os@neon-virtualbox:~$ sudo useradd -m newusr
[sudo] password for os:
os@neon-virtualbox:~$ sudo usermod -a -G sudo newusr
os@neon-virtualbox:~$ groups newusr
newusr : newusr sudo
os@neon-virtualbox:~$ sudo su - newusr
$
```

sh — Konsole

```

The image shows a terminal window with a menu bar (File, Edit, View, Bookmarks, Settings, Help) and a toolbar with options like 'New Tab', 'Split View Left/Right', 'Split View Top/Bottom', and 'Load a new tab with layout 2x2 terminals'. The terminal content shows a user attempting to delete a user and group named 'newusr' using 'sudo userdel -f newusr' and 'sudo groupdel newusr'. The first command fails with a password prompt and a 'Sorry, try again.' message. The second command fails with the message 'userdel: group newusr not removed because it has other members.' The prompt returns to the user's shell.
